

Dear Mike and Jan

Mary and Mike just left they come over for dinner today. We ate about four o'clock and from five until six Dad and Mike watched a football game and Mary and I both had to shoo them away and then we played bridge.

My bridge partner, Nina, went to Las Vegas last week to meet a friend of hers and she fell and broke her hip and is in pretty bad condition as her vertebrae were also injured & feel really bad about that and she can't be moved from the hospital in Las Vegas so I don't know yet how long she will have to be kept there. She was playing bridge and when she got up from the bridge table it happened.

Sandra and Beck are accepting

Her address remarkably well
known always is cheerful and
has been getting out a letter
but more now Mary and Kate
had lunch and Dick over for
dinner Friday night and they all
had a good time.

Paul must be pretty busy as only
her father has heard from her
one time. I am glad she is with
Garry and they won't be there
much longer. Right after Christmas
they are going to Hawaii with
three friends who got married
last month.

Our new temporary neighbors
across the street are from
Tokio and they want to go back.
They miss the Tokion food and
the climate and everything.

We are especially wanting your
trip home and that hope on the
beautiful plane will be perfect
just have two martini and the
fine home will be fine
like we want to Europe & back

Really enjoyed the trip and at first the horses ran stop sounded pretty awful but the Martins do alot of good.

The mole has torn up our backyard completely and we havent been able to catch it, even with traps I am afraid several families under would now have traps set out there all day long, hoping to get the mole.

Its time for bed and we must see you soon

Love
Mom
